Technical Visits

9:30 Meet in the lobby of the Radisson Hotel

There are **two** options for the visits:

Please indicate in the registration form which Waste-to-Energy plant you would like to visit:

Either

INDAVER Doel Waste-to-Energy plant

In Doel, Indaver processes domestic and commercial waste in a number of high-technology installations such as grate and fluidized bed incinerators, ash treatment installation, processing units for high-quality recycling of mercurial waste, a category 1 and category 2 landfill. An integrated solution is achieved for all waste streams thanks to the use of complementary installations.

www.indaver.be/

or

ISVAG Waste-to-Energy plant

The visit to the ISVAG plant will focus on how the plant has worked with the local residents to communicate the important role Waste-to-Energy plays in sustainable waste management.

www.isvag.be/

12:00 Light lunch at the plants

13:00 Departure by bus to the hotel

End: 14:00 Arrive back to the hotel

Practical information:

- For the plant visits, please wear sensible shoes (not high-heels) as some of the floors in the plants are grates.
- Also, please let us know if you are afraid of heights, so that we can arrange routes around the plants that you can enjoy.
