

Internship in CEWEP – Confederation of European Waste-to-Energy Plants

Main functions: Assisting CEWEP, focusing on scientific, policy and organisational issues.

Starting date: January/February 2020

Location: Brussels, CEWEP office, Avenue de Tervueren 113

CEWEP (Confederation of European Waste-to-Energy Plants) is the umbrella association of the operators of Waste-to-Energy plants, representing about 400 plants from 22 countries. CEWEP focuses on contributing to European environmental and energy legislation that can affect Waste-to-Energy Plants.

Key responsibilities include:

- Monitoring data regarding Waste-to-Energy, including producing, maintaining and supporting databases;
- Assisting in the organisation of CEWEP workshops, working groups and other CEWEP meetings;
- Focusing on technical issues related to the operation of Waste-to-Energy plants and environmental assessment of waste management systems, energy resources, climate protection, chemical properties of waste and residues;
- Research: information gathering on up-coming legislation and studies;
- Communicating technical issues in an easily understandable way;
- Studying and preparing reports and position papers on existing and upcoming waste and energy-related EU legislation;
- Attending meetings of the EU Institutions and other relevant conferences and events and reporting back to the Managing Director;
- As well as other administrative tasks.

Knowledge, experience and skills required:

- Knowledge and interest in sustainable waste management, energy and climate topics;
- Knowledge and experience in EU policy;
- Excellent verbal and written English. Other languages are an asset (particularly French);
- Good knowledge of basic statistics and tools for managing data sets;
- Good computer skills (Microsoft Office suite, especially Excel);
- Effective organisational skills;
- A quick learner, team spirit and autonomous. Excellent communication skills;
- Interest in working in a small team in Brussels environment;
- University degree. Technical academic background is a plus (chemical, mechanical, environmental engineering or similar).

We offer:

- A 5-6 months Internship in CEWEP;
- Interesting and varied work in a small, but effective team in a friendly working atmosphere;
- Possibility to learn and broaden your experience in multiple fields.

To apply:

Qualified candidates should submit via e-mail a maximum one-page cover letter and a short CV (in English) to Agnė Razgaitė applications@cewep.eu by **Monday 25th November 2019**.

Please mention in the title of your application "*Application Internship at CEWEP*".
